Ambulatory Workflow Examination

Say goodbye to inefficient clinic workflows!

Who Benefits Most from AWE?

- Recently gone live with EpicCare Ambulatory?
- Added new specialties and/or Epic specialty modules?
- Extended Epic to affiliates through Community Connect?
- Opened or acquired a new clinic?
- Slow visit turnaround time?
- Low patient satisfaction scores?
- Provider burnout?

Why AWE?

Rushed through user training to meet your go-live date?
Live on Epic, but still clinging to legacy EHR workflows?
Developed a solution that practices refuse to adopt?
Providers spending more time documenting than with their patients?

...sound familiar?

AWE can help your organization break old habits, discover intuitive new ways to harness the power of Epic, and engage end users like never before.

In just 4-weeks, our Epic experts will observe, inquire, and analyze your system configuration and staff workflows to compile a comprehensive set of recommendations designed to meet your organization's unique needs.

You have the flexibility to decide how and when to implement these recommendations with no additional obligation or risk.

Leverage your existing staff or rely on the pros at Healthcare Triangle to see these projects to fruition.

HEALTHCARE
TRIANGLE™

Reinforcing Healthcare Progress™

AWE Benefits

Healthcare Triangle (HCTI) can help you achieve:

- Faster, more efficient patient throughput
- More intuitive clinical workflows
- An overall reduction in clicks and scrolling
- Greater opportunities for increasing patient volumes
- Improved automation of common processes
- Better physician satisfaction scores

AWE is a part of Healthcare Triangle's TAO series of assessments

TAO stands for **T**argeted **A**reas of **O**pportunity.

The TAO series is a set of standardized assessments available to Epic healthcare systems that are proven to deliver results. Each assessment is a low-cost, fast-paced engagement that identifies targeted areas of opportunity and yields detailed recommendations for our clients to achieve their desired outcomes.

HCTI's standard TAO series assessment options:

- RCC: Revenue Cycle Check-Up
- PEP: Provider Experience Priority
- AWE: Ambulatory Workflow Examination
- PMI: Pharmacy/Medications Inquiry
