Revenue Cycle Check-Up

Take charge of your organization's financial wellness!

Who Needs a Revenue Cycle Check-Up?

If your healthcare system underwent an Epic implementation, merger, acquisition, or new location go-live within the past 24 months or recently introduced new services, procedures, or offerings, a Revenue Cycle Check-Up (RCC) could benefit you.

The Revenue Cycle Check-Up (RCC) is a deep and thorough investigation into Resolute Hospital Billing and Resolute Professional Billing configurations. It's a 4-week project where our experts gather information by conducting interviews and a system audit. Our team provides you with a priority-ranked report of findings, uncovering how you can improve financially.

Why are Check-Ups so Important?

Regular screening can help find problems before they start. They also can help you find problems early, when your chances of prevention or cure are better.

By getting the right assessment services, screenings, and prescribed Epic configuration modifications, you are taking steps that help your chances for improving quality of care delivery, improved provider & patient satisfaction, maximizing your reimbursement, minimizing lost charges, and strengthening your immediate and long-term financial health.

This assessment is a low cost, low risk way to discover how to better leverage your investment in your healthcare information technology.

Reinforcing Healthcare Progress™

RCC Benefits

In previous RCCs, Healthcare Triangle (HCTI) uncovered system configuration errors that led to millions of dollars of lost charges and claims. HCTI prescribed solutions that allowed our clients to ensure those losses were no longer endured.

RCC is a part of Healthcare Triangle's TAO series of assessments

TAO stands for **T**argeted **A**reas of **O**pportunity.

The TAO series is a set of standardized assessments available to Epic healthcare systems that are proven to deliver results. Each assessment is a low-cost, fast-paced engagement that identifies targeted areas of opportunity and yields detailed recommendations for our clients to achieve their desired outcomes.

HCTI's standard TAO series assessment options:

- RCC: Revenue Cycle Check-Up
- PEP: Provider Experience Priority
- AWE: Ambulatory Workflow Examination
- PMI: Pharmacy/Medications Inquiry
